Dear Parents and Guardians:

The AEC teaching staff has been receiving positive messages regarding the at-home learning packages delivered bi-weekly with the store flyer packs and the on-line learning materials in your child(ren)'s Google Classroom.

I would like to thank you for your ongoing efforts in helping students stay connected to learning, while at home.

We know this is an uncertain time for families and this is not 'business as usual'. Our teachers do not want families to feel additional pressure to re-create 'school at home'. This is not the expectation or intention at all.

Our first priority is to maintain and build relationships with students and families; we recognize your first priority is to stay safe and healthy.

If you feel at-home learning is creating additional challenges or if you require additional support, please speak with your child's teacher or school administration. We are here to help you as we work together to support our students and learning at home.

Thank you,

April Weaver
Principal
Antigonish Education Centre
